COMPANY PROFILE

Amphenol ICC, a division of Amphenol, is a world leader providing interconnect solutions for the **I**nformation, **C**ommunications and **C**ommercial electronics markets.

We design and manufacture a wide range of innovative connectors as well as cable assemblies for diverse applications including server, storage, data center, networking, industrial, business equipment and automotive.

With our global presence in R&D, manufacturing and sales, we are well positioned to support our customers wherever they operate.

GLOBAL FOOTPRINT

Amphenol ICC was established through the alignment of Amphenol FCI (AFCI) and Amphenol IT Communications Products (AITC) from January 2017.

The new division further strengthens our manufacturing footprint and deepens our position with customers across many of our important end markets like industrial and automotive. Amphenol ICC has the global footprint to support customers on a worldwide basis.

Amphenol ICC is comprised of several key businesses including:

MANUFACTURING AND R&D FOOTPRINT

Amphenol ICC's heavy emphasis on R&D for both new product and technology development, focusing on the advancement of the next generation of high-speed interconnects and power distribution solutions as well as innovative manufacturing solutions.

Our R&D centers worldwide have registered thousands of patents and licensing agreements, developing some of the world's first innovations in connectors such as Shield-less High-Speed Connectors, Ball-Grid-Array Attachments, economical Stamped High-Power Contacts and cost effective yet reliable plating processes.

We relentlessly seek improvements of our products, increasing our solutions' overall cost effectiveness, precision and reliability. This ensures that we meet or even surpass the ever changing needs and expectations of market trends.

CORPORATE GOVERNANCE

Amphenol ICC recognizes the importance of Corporate Governance and therefore, we actively monitor our compliance with the current ethical standards, law and international norms.

We aim to be a responsible company and take charge of our actions in order to create a positive impact towards the environment, shareholders, employees, customers, suppliers and other stakeholders.
