WIKIPEDIA

Amphenol

Amphenol Corporation is a major producer of electronic and fiber optic connectors, cable and interconnect systems such as coaxial cables.[3] Amphenol is a portmanteau from the corporation's original name, American Phenolic Corp.[4]

Amphenol was founded in Chicago in 1932 by entrepreneur Arthur J. Schmitt, whose first product was a tube socket for radio tubes (valveholder bases).[5] Amphenol expanded significantly during World War II, when the company became the primary manufacturer of connectors used in military hardware, including airplanes and radios. From 1967 to 1982 it was part of Bunker Ramo Corporation.

The company sells its products into diverse electronics markets, including military-aerospace, industrial, automotive, information technology, mobile phones, wireless infrastructure, broadband, medical, and pro audio. Operations are located in more than 60 locations around the world.

Amphenol's world headquarters is located in Wallingford, Connecticut.[6] The largest division of Amphenol is Amphenol Aerospace (formerly Bendix Corporation) in Sidney, New York. This is the birthplace of the MIL-DTL-38999 cylindrical connector. Amphenol engineers also invented the commonly used BNC connector ("Baby Neill Constant")[7].

Amphenol Fiber Systems International is a fiber optic company started in 1993 that specializes in the fabrication and manufacturing of fiber optic connectivity products and systems. AFSI provides solutions for communication systems based on fiber optic interconnect technology. AFSI employs over 100 people at its 50,000 square foot facility in the heart of the telecom corridor in Allen, just north of Dallas, Texas.[8]

Amphenol Corporation

Type	Public
Traded as	NYSE: APH (https://www.nyse.com/quote/XNYS:APH) (Class A) S&P 500 component
ISIN	US0320951017
Industry	electronics
Founded	1932[1]
Founder	Arthur J. Schmitt
Headquarters	Wallingford, Connecticut, U.S.
Key people	R. Adam Norwitt, President and CEO
Products	Coaxial cables, Connectors
Revenue	▲ US$ 7.011 billion (2017)[2]
Operating income	▲ US$ 1.428 billion (2017)[2]
Net income	▼ US$ 660.7 million (2017)[2]
Total assets	▲ US$ 10.004 billion (2017)[2]
Total equity	▲ US$ 4.043 billion (2017)[2]
Number of employees	70,000 (December 2017)[2]
Website	amphenol.com (http://amphenol.com)

Amphenol Cables on Demand, another division of Amphenol launched in December 2006, specializes in distributing standard cable assemblies via their e-commerce storefront. They sell more than 2500 audio, video, computer, and networking cables. Offices are located in New York, California, Florida, Toronto, and China.

16-pin male MIL-DTL-5015 Amphenol electrical connector

36-pin "Micro ribbon" (centronics) connector. (Micro ribbon connectors were an **Amphenol** invention, but this sample may not have been manufactured by Amphenol)

Acquisitions

In May 2005, Amphenol acquired **SV Microwave**,[9] a manufacturer of RF connectors, components and cable assemblies.

On October 10, 2005, Teradyne and Amphenol announced that Amphenol would acquire Teradyne Connection Systems, for about USD $390 million in cash.[10] TCS, based in Nashua, New Hampshire, manufactures high-density electronic connectors, complete backplanes, and systems packaging, a product line that complements Amphenol's existing lines of business.

In February 2008, Amphenol acquired **SEFEE**, a French electronic manufacturer, the next year in 2009 it acquired **Jaybeam Wireless**[11] . Jaybeam Wireless became Amphenol Jaybeam and is now Amphenol Antenna Solutions.

On November 15, 2013, Amphenol announced it had entered an agreement to acquire Advanced Sensors Business of GE for approx. $318 million.[12][13]

In December 2013, Amphenol acquired Tecvox OEM Solutions LLC,[14] a business started by Raj Khanijow based in Huntsville AL. Tecvox is a leader in automotive OEM USB connectivity products. Tecvox was the first automotive company to release the OEM USB based media hub and charger.

On January 8, 2016, Amphenol finalized its deal to acquire FCI Asia Pte Ltd[15] an interconnect company specializing in the telecom, datacom and wireless communications markets.

In July 2016, Amphenol acquired AUXELFTG (AUXEL), a French manufacturer of power busbars and power interconnect solutions.[16]

In January 2017, Amphenol acquired Phitek Ltd, a New Zealand-based manufacturer and the world's leading supplier of electronic noise-cancellation, audio enhancement and other electronic touch point devices in the aircraft cabin.[17]

In June 2017, Amphenol acquired Wilcoxon Research (US), Piezo Technologies (US) and Piher Sensors and Controls (Spain), three Industrial Sensing businesses from the British engineering group Meggitt PLC.[18]
